

16002225

STATE LICENSE

16002225

08.02.2016

Issued to

“Zhanazhol Munay Servis” Limited Liability Partnership

030000, Republic of Kazakhstan, Atyrau region, Atyrau city administration, Atyrau city, AVANGARD MICRODISTRICT 3, house No. 39 a, office 25, BIN: 111040014758

(full name, location, business-identification number of the legal entity (including foreign legal entity), business-identification number of the subsidiary or establishment of foreign legal entity – in case of absence of business-identification number of the legal entity /full surname, name, patronymic name (if available), individual identification number of the individual)

For activity

Project activity

(name of the licensed activity in accordance with the Law of Republic of Kazakhstan “On authorization and notifications”)

Specific conditions

III category

(in accordance with Article 36 of the Law of Republic of Kazakhstan “On authorization and notifications”)

Note

Inalienable, class 1

(Alienability, authorization class)

Licensor

State enterprise “Administration of the state architectural and construction control of the Atyrau region”. Akimat of the Atyrau region.

(full name of the licensor)

**Chief
(authorized person)**

MUKHAMBETKALIULY KUANYSH

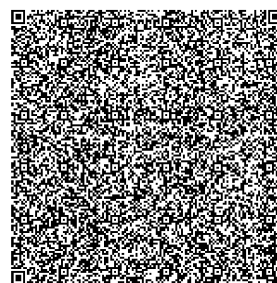

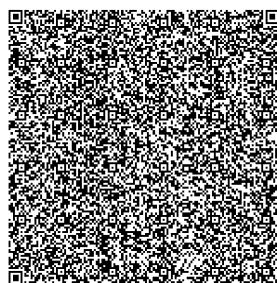

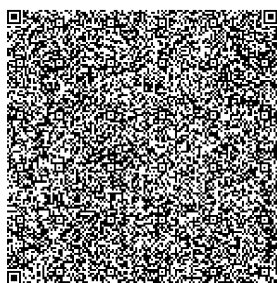

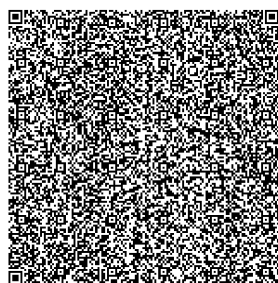

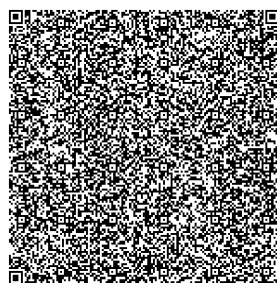

(surname, name, patronymic name (if available))

Date of original issue

**Validity period
of the license**

Place of issue

Atyrau city

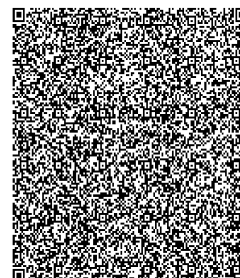

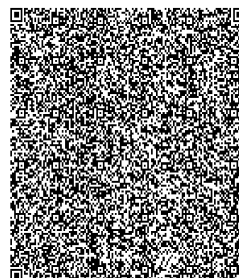

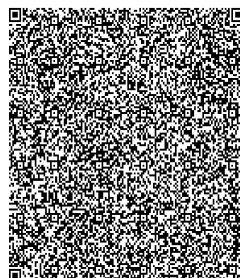

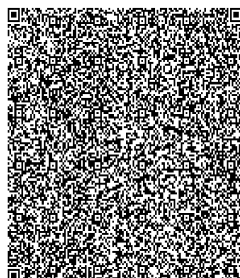

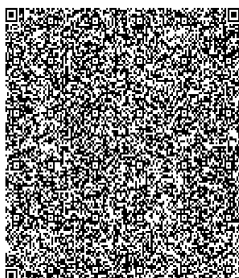

APPENDIX TO THE STATE LICENSE

Number of license 16002225

Date of issue of license 08.02.2016

Subtype (-s) of the licensed activity:

- Technological design (development of the technological part of construction projects) of buildings and structures for housing and civil purposes, including:
 - For transport infrastructure (intended for direct service to the population) and public utilities (except buildings and facilities for servicing vehicles, as well as other industrial and economic purposes)
- Technological design (development of the technological part of construction projects) of transport infrastructure facilities, communications, including maintenance:
 - National and international communication lines (including satellite) and other types of telecommunications
 - Local communication lines, radio, telecommunications
 - Intracity and interurban transport, including road, electric, railway and other rail, air, water transport
- Technological design (development of the technological part of transport construction projects), including:
 - Street-road network of urban electric transport
 - Roads of all categories
- Urban planning (with the right to design for urban planning rehabilitation of areas of historical buildings, with the exception of scientific and restoration works on historical and cultural monuments) and planning, including the development of:
 - Gas supply schemes for settlements and industrial complexes located in inter-settlement territories
 - Schemes of sewage settlements and industrial complexes, including a centralized system for the collection and removal of domestic, industrial and storm water runoff, the placement of head treatment plants, evaporators and facilities for the regeneration of wastewater
 - Telecommunications and communication schemes for populated areas with the placement of infrastructure and sources of information
 - Schemes of power supply of settlements with the placement of objects for the production and transportation of electrical energy in the building system, as well as power supply for industrial complexes located in inter-settlement areas
 - Plans for the development of transport infrastructure of settlements (street-road network and objects of intracity and interurban transport located within the boundaries of settlements) and inter-settlement territories (objects and communications of external transport located outside the street-road network of settlements)

APPENDIX TO THE STATE LICENSE

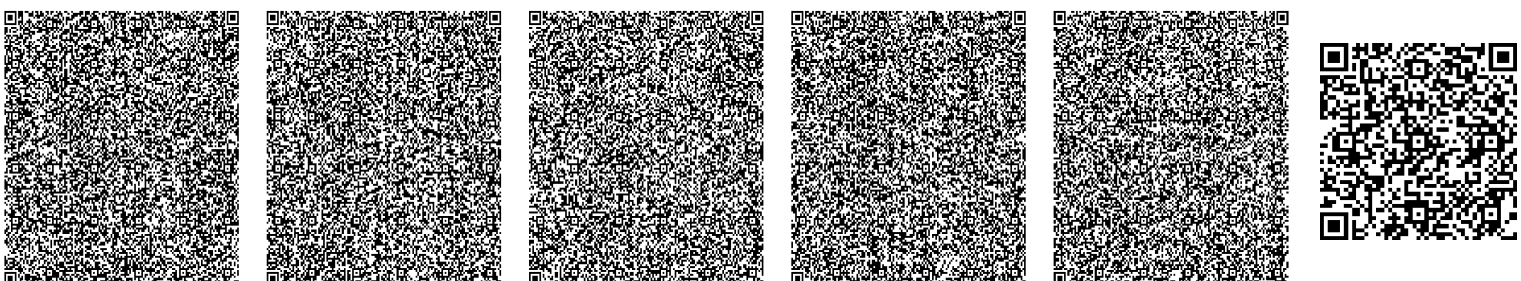

Number of license 16002225

Date of issue of license 08.02.2016

Subtype (-s) of the licensed activity:

- Urban planning (with the right to design for urban planning rehabilitation of areas of historical development, with the exception of scientific and restoration work on historical and cultural monuments) and planning, including the development of:
 - Planning documentation (complex schemes of urban planning of territories - projects of regional planning, general plans for settlements, detailed planning projects and projects for building up districts, microdistricts, neighborhoods, individual sites)
 - Schemes of water supply of settlements with the placement of sources of drinking and (or) industrial water and the tracing of water lines, as well as schemes of water supply for industrial complexes located in inter-settlement territories
 - Schemes of heat supply of settlements with the placement of objects for the production and transportation of heat energy in the building system, as well as heat supply of industrial complexes located in inter-settlement areas
- Construction design (with the right to design for the overhaul and (or) reconstruction of buildings and structures, as well as strengthening of structures for each of the following works) and design, including:
 - Metal (steel, aluminum and alloys) structures
 - Concrete and reinforced concrete, stone and reinforced stone structures
 - Foundations and foundations
- Design of engineering systems and networks, including:
 - Systems of internal and external electric lighting, power supply up to 0.4 kV and up to 10 kV
 - Power supply up to 35 kV, up to 110 kV and above
 - Main oil pipelines, oil pipelines, gas pipelines (gas supply of medium and high pressure)
 - Internal heating systems (including electric), ventilation, air conditioning, cold supply, gasification (low pressure gas supply), as well as their external networks with auxiliary facilities
 - Internal water supply systems (hot and cold water) and sewage, as well as their external networks with auxiliary facilities
 - Internal systems of low-voltage devices (installation of telephones, fire alarm systems), as well as its external networks

(name of the subtype of the licensed activity in accordance with the Law of Republic of Kazakhstan “On authorization and notifications”)

Licensee **“Zhanazhol Munay Servis” Limited Liability Partnership**
